OMGMA INVOLVEMENT

- Please describe your current participation in the OMGMA (conferences & meetings attended)

I have attended several MTO events, last year's joint OR/WA conference and have been a member of the OMGMA membership committee for almost a year. I am actively engaged with the PDX listserve group and participate in as many of the monthly Zoom lunch meetings as my schedule will allow.

- What opportunities do you see ahead for OMGMA?

First is the decision on whether to stay aligned with the national MGMA or follow the road several other states have chosen to like WA recently did. Honestly, at this point I am not informed enough to have an opinion on what OMGMA should do regarding this. With all the changes constantly occurring in healthcare, there is always a need for continuing education, networking and collaboration to help all of us to be successful.

- Please describe the contribution(s) you could make as an OMGMA Board Member.

I have been involved with MGMA in California for many years, but was did not hold a formal positon. I attended almost all of the local meetings and state conferences for the 10 years I lived in Sacramento and have seen the value of MGMA and have also had the privilege of working many great leaders over the years. I really want to serve and to give back to the healthcare leaders of today/tomorrow like so many have done for me, and I feel service as a member of the OMGMA Board will provide me the opportunity to do this a higher level.

OTHER

- Please describe any other personal or career achievements, organization leadership positions (civic, educational, charitable), or honors and awards received that you would like the nominating committee to know about you.

I have always been active in creating internship/externship programs with local educational organizations. I have taught at the bachelor and master's level in Healthcare Administration for approximately 12 years. The last several years I have taught at the University of California, Sacramento in their Public Health/Healthcare Administration program. I have also been an active member/Fellow in the American College of Healthcare Executives (ACHE) since 1996. I served as a Regent for them in Alabama, and have served as a mentor for their formal mentorship program a number of times.

OMGMA INVOLVEMENT

- Please describe your current participation in the OMGMA (conferences & meetings attended) I have attended 2 previous OMGMA conferences. One in Seattle and one in Portland. I appreciate any opportunities to learn and have participated in several manger timeouts over the years. I believe these types of opportunities are important to people in my position as we do not often get support. Being with like minded people is very informative, educational, and renew the energy needed to be successful.

- What opportunities do you see ahead for OMGMA? I feel that any services, educational meetings, seminars, conferences that OMGMA offers benefits healthcare institutes. It is difficult to attend every learning opportunity that is offered by a variety of organizations. Having OMGMA consolidate or select key areas that are relevant to our State is important and beneficial.
- Please describe the contribution(s) you could make as an OMGMA Board Member. I work for two primary care clinics in Southern Oregon, one being a certified rural health clinic. What happens in larger populated areas is not always relevant to us. I feel that having a voice on how OMGMA can support Rural Oregon would be beneficial. I was the responsible person in Mountainview Family Practice in Grants Pass, Oregon being the first recognized clinic in Oregon for Patient Centered Primary Care Home (PCPCH). I have served twice on Oregon Health Authorities PCPCH advisory committee. I believe my 25 years' experience in working in healthcare would benefit OMGMA Board of Directors. I coordinate with multiple payers to support quality improvement initiatives and advocate for change. I have a clear understanding what it takes to be successful in primary care, the challenges, and the roadblocks.
